Update on Letter to the PUC

In 2023, many PPL customers received unexpectedly high utility bills and I reached out to the PUC on the issue. The investigation into the high bills is complete, and the PUC board will review the findings. BUT, before that happens, I have requested a public hearing so the public can present their concerns and personal circumstances before the PUC board makes a final settlement decision. Stay tuned for that date. In the meantime, you can contact the PUC with your comments at 1-800-692-7380.
